

Concurrency and Computation Practice and Experience (CCPE), *SI: Smart Media & Application (SMA)*

- This Special Issue is a call for extended papers of presentations held [during the 7th international conference on Smart Media & Application \(SMA2018\), June 25-June 29, 2018 at Salamanca University, Spain](#). Authors of selected papers of the conference will be invited to submit extended versions which can be published in special issue upon evaluation.
- Topics of interest include, but are not limited to:
 - Computational Intelligence
 - Applied Soft Computing and Fuzzy Logic and Artificial Neural Networks
 - Intelligent Contents Security
 - Model Driven Architecture and Meta-Modeling
 - Multimedia Contents Processing and Retrieval
 - Sensors and Networks (wireless ad hoc N/W, Vehicular N/W)
 - Big Data, Intelligence Information Processing
 - Convergence / Complex Contents, Smart Learning
 - Culture Design, Universal Design, UI/UX, Interaction Design and Information Theory
 - Intelligent Contents Design Management, Methodology and Design theory
 - Intelligent Media Contents Convergence / Complex Media
 - Social media and collective intelligence
 - Social Media Big Data Analytics
- Papers are published upon acceptance, regardless of the Special Issue publication date.
 - Invitation to Special Issue: July 31 2018.
 - Submission deadline for Special Issue: October 31, 2018.
 - First round of review: November 30, 2018.
 - Final manuscript due: January 31, 2019.
 - Estimated publication date: fourth Quarter 2019
- The guest editors of the special issues are
 - **Hoon Ko**, Chosun University, Gwangju-City, South Korea; dr.hoonko@gmail.com / skoh21@chosun.ac.kr
 - **Goreti Marreiros**, Departamento Engenharia Informática Instituto Superior de Engenharia do Porto, Porto, Portugal, gormarreiros@gmail.com
